Miss Penny Lanzisera:

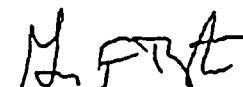

In reference to your e-mail request on January 18, 2005, the following additional information is provided:

Operating and emergency procedures will be developed, implemented, maintained, and distributed and will meet the Criteria in the section entitled 'Radiation Safety Program - Operating and Emergency Procedures' in NUREG-1556, Vol. 5, 'Consolidated Guidance about Materials Licenses: Program-Specific Guidance about Self-Shielded Irradiator Licenses,' dated October 1998

Appendix O (Information for Applicants to Consider When Developing Operating and Emergency Procedures for Self-Shielded Irradiators) and Section 8.10.6 (Operating and Emergency Procedures) 8.10.6 Operating and Emergency Procedures were reviewed when preparing these procedures.

If you have any questions concerning this additional information, please contact Gary F. Talkington, Radiation Safety Officer, at (703) 776-3394 or [Gary.Talkington@inova.com](mailto:Gary.Talkington@inova.com).

Thank you for your time and attention in this matter.

  
Gary F. Talkington  
Radiation Safety Officer  
Inova Fairfax Hospital

RMGS/RGNI MATERIALS-002

From: "Penny Lanzisera" <PAN@nrc.gov>  
To: <gary.talkington@inova.com>  
Date: 1/24/2005 11:54:17 AM  
Subject: Re: Amendment to add irradiator

I received the response. However, the final version of NUREG-1556, Vol. 5 that was distributed was dated October 1998, not June 1998. Therefore, please re-send your letter and reference the October 1998 version.

In addition, I am still awaiting your response to questions I sent on December 13, 2004 regarding the addition of authorized users and the deletion of IVBT devices. Please provide a status of your response to these issues and confirm that your fax number is 703-776-2743.

Penny

Good morning. Congrats to the Eagles. Being a Pittsburgh kid, I'm in mourning for the Steelers.

Just faxed the requested info to your office. Hope this is the final piece you need. If more is required, just let me know.

One request: When (if) this amendment is approved, please fax me a copy so that I may contact Nordion and expedite the irradiator shipping.

Thanks (and stay warm)  
Gary

Dear Mr. Talkington, thank you for your response dated January 6, 2005. Please confirm that your operating and emergency procedures will meet the Criteria in the October 1998 version of NUREG-1556, Vol. 5. You may fax your confirmation to my attention at 610-337-5269. Please reference mail control number 136114.
