 Subject: Plan ahead for interim acceptance criteria and enf discretion package for Manual Action

Renee/Chris:

I propose the following path forward. Please let me know (with copies to Eva and Ray) whether you have any objections:

1. I am asking Ray to transmit you the interim criteria ASAP. He has modified them to accommodate OGC+UCS+NEI+ IIPB and many others' comments.
2. I recommend that you use Ray's input to start on the SECY on enf discretion. However, do not issue the the discretion package until we have another public meeting on these. Please read the next two items.
3. NEI requested a meeting to discuss their comments. We will grant them that request by having a Category 2 public meeting open to all public stakeholders (tentatively on March 30).
4. We may have to modify our criteria as a result of any feedback from this public meeting.
