Subject: Re: draft re-write

Would a walk-through of an example of how a licensee might develop and/or NRC might review a credited OpManAx against each of the criteria suffice? I could probably develop a hypothetical example, qualitative, not quantitative.

>>> David Diec 03/11/04 08:55AM >>>

Jim, you are on the right track. The TB could use a more broader discussion on NRC's expectation on what licensees need to do with the criterion and why NRC believes it is necessary.

Phil, Ray, Dave:

I've taken a shot at trying to address preparing TB's for the criterion (ignore the format). Is this the level of detail and type of content needed or have I missed the mark?? Items are in redline...

Thanks.

Jim
