Tanya,

Only one correction, the inspectors are issuing findings not URIs for the manual action problems. My comments are in pink uder the reviewer tab.

Eva,

Attached is the updated Comm Plan for manual actions. It incorporates comments from Jason and Ray. I don't know what your plan is to distribute to the rest of the group. But usually once a good draft is complete, OPA receives it for review/comment. If you agree that it's ready for OPA comment, I will forward to them. Particularly with the Q&A's, they will be able to provide additional insight or maybe propose other questions that the staff has not yet considered or addressed.

Please let me know when you are ready to proceed.
