Re: Material License No. 47-13348-02

Dear Sirs,

As Radiation Safety Officer for Alcan Aluminum Corporation's Fairmont, West Virginia facility, I am writing to provide you with notice of a name change for our corporation. Alcan Aluminum Corporation, Alcan Rolled Products Company, was spun off by its Canadian parent company Alcan Inc., to a corporate entity to be called Novelis Inc. Alcan Aluminum Corporation, Alcan Rolled Products Company, changed its name to Novelis Corporation effective January 6, 2005. The Federal Employer I. D. Number (41-2098321) will remain the same.

Novelis will have the same President and Management Structure and the Fairmont Plant will have the same Plant Manager, Department Managers and Radiation Safety Officer. Novelis Corporation, Fairmont Plant, will continue to be responsible for all License obligations and responsibilities as it was under the name of Alcan Aluminum Corporation.

The facilities, location and use of the thickness gauges will remain as described in our license. The procedures as described in the license will be the same. The wipe tests, inventories, and calibrations are current and will be performed as required in the future.

All of the records concerning the thickness gauges (installation surveys, wipe tests, inventories and calibration) are still located at the Fairmont Plant. These records are under the control of the plant Radiation Safety Officer.

Since the personnel has not changed in this spin off, we will continue to abide by all constraints, conditions, requirements, and commitments as spelled out in the Material License No. 47-13348-02. All parts of the program have not changed.

If you need any further information please contact me at any time.

A handwritten signature in black ink, appearing to read "Jack R. Rush, Jr.", is written over a horizontal line.

Jack R. Rush, Jr.
Radiation Safety Officer
