KING OF PRUSSIA, PENNSYLVANIA 19406-1415

February 8, 2005

Docket No. 03033696
Control No. 136102

License No. 29-30179-01

Surendra K. Bagaria, M.D.
Director
South Jersey Heart Group, P.C.
3001 West Chapel Avenue
Cherry Hill, NJ 08002

**SUBJECT: SOUTH JERSEY HEART GROUP, P.C., ISSUANCE OF LICENSE RENEWAL,
CONTROL NO. 136102**

Dear Dr. Bagaria:

This refers to your request for renewal of your NRC license. Enclosed with this letter is the renewed license. Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

The NRC is required to have your Taxpayer Identification Number in order to make payments (refunds). The self-addressed, stamped NRC Form 531, "Request for Taxpayer Identification Number," is enclosed.

The NRC expects licensees to conduct their programs with meticulous attention to detail and high standards of compliance. Because of the serious consequences to employees and the public that can result from failure to comply with NRC requirements, you must conduct your program according to NRC regulations, the conditions of your NRC license, and the representations made in your application. In particular, note that you must:

1. Operate in accordance with NRC regulations 10 CFR Part 19, "Notices, Instructions and Reports to Workers; Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.
2. Notify the NRC in writing of any change in mailing address.
3. In accordance with 10 CFR 30.36(d), notify the NRC, promptly, in writing, and request termination of the license
 - a) when you decide to terminate all activities involving materials authorized under the license; or
 - b) if you decide not to acquire or possess and use authorized material.
4. Request and obtain a license Amendment before you:

- a) change Radiation Safety Officers;
 - b) order byproduct material in excess of the amount, or radionuclide, or form different than authorized on the license; or
 - c) add or change the areas of use, or addresses of use identified in the license application or on the license; or
 - d) change the name or ownership of your organization.
5. Submit a complete renewal application or termination request at least 30 days before the expiration date of your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of byproduct material after your license expires is a violation of NRC regulations.

In addition, please note that NRC Form 313 requires the applicant, by signature, to verify that the applicant understands that all statements contained in the application are true and correct to the best of the applicant's knowledge. The signatory for the application should be the licensee or a certifying official of the licensee rather than a consultant.

You will be periodically inspected by the NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in NUREG 1600, "General Policy and Procedure for NRC Enforcement Actions" (Enforcement Policy).

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Please note that on October 25, 2004, the NRC suspended public access to ADAMS, and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the NRC Public Document Room pending resumption of public access to ADAMS. The NRC Public Document Room is located at NRC Headquarters in Rockville, MD, and can be contacted at 800-397-4209 or 301-415-4737 or pdrc@nrc.gov.

S. Bagaria
South Jersey Heart Group, P.C.

3

Thank you for your cooperation.

Sincerely,

Original signed by Elizabeth Ullrich

9. Authorized use:

A. Any cardiac imaging and localization procedure approved in 10 CFR 35.200.

CONDITIONS

- 10. Licensed material may be used only at the licensee's facilities located at 539 Egg Harbor Road, Sewell, New Jersey, and 3001 West Chapel Avenue, Suite 102, Cherry Hill, New Jersey.
- 11. The Radiation Safety Officer for this license is Howard M. Weinberg, D.O.
- 12. Licensed material listed in Item 6 above is only authorized for use by, or under the supervision of the following individual for the material and use indicated:

Authorized Users

Material and Use

Howard M. Weinberg, D.O.

35.200 for cardiovascular clinical procedures

Surendra K. Bagaria, M.D.

35.200 for cardiovascular clinical procedures

**MATERIALS LICENSE
SUPPLEMENTARY SHEET**

Joshua M. Crasner, D.O.

35.200 for cardiovascular clinical procedures

John N. Hamaty, D.O.

35.200 for cardiovascular clinical procedures

Anil G. Kothari, M.D.

35.200 for cardiovascular clinical procedures

- 13. In addition to the possession limits in Item 8, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in 10 CFR 30.35(d) for establishing financial assurance for decommissioning.
- 14. The licensee is authorized to transport licensed material in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material."
- 15. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below, except for minor changes in the medical use radiation safety procedures as provided in 10 CFR 35.31. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.
 - A. Application dated December 6, 2004 (ML043480331)
