U.S. Nuclear Regulatory Commission  
Attention: Document Control Desk  
Washington, D.C. 20555-0001

Serial No.: 04-729B  
NL&OS/MAE: R0  
Docket Nos.: 50-280/281  
72-2  
License Nos.: DPR-32/37  
SNM-2501

**VIRGINIA ELECTRIC AND POWER COMPANY**  
**SURRY POWER STATION UNITS 1, 2 AND ISFSI**  
**CONFIRMATION OF IMPLEMENTATION OF APRIL 29, 2003 ORDERS**

The NRC issued Orders dated April 29, 2003: EA-02-038, *Order for Compensatory Measures Related to Fitness-For-Duty Enhancements Applicable to Nuclear Facility Security Force Personnel*; EA-03-039, *Order for Compensatory Measures Related to Training Enhancements on Tactical and Firearms Proficiency and Physical Fitness Applicable to Armed Nuclear Power Plant Security Force Personnel*; and EA-03-086, *Order Requiring Compliance with Revised Design Basis Threat* (collectively referred to as "Orders") for the Surry Power Station. In addition to other requirements, the Orders required nuclear power plant licensees to revise their Physical Security Plan, Safeguards Contingency Plan, and Training and Qualification Plan; submit those plans to the NRC for approval by April 29, 2004; and complete implementation of those plans by October 29, 2004, unless a request for a schedule extension for one or more elements of those plans was approved by the NRC.

On April 26, 2004, Virginia Electric and Power Company (Dominion) filed a Supplemental Response to Order EA-03-086 that contained the Physical Security Plan, the Safeguards Contingency Plan, and the Training and Qualification Plan as required by Order EA-03-086 for Surry Power Station (Serial No. 04-242). Dominion later revised the submittal based on NRC requests for additional information and resubmitted revised plans on September 9, 2004 (Serial No. 04-242A) and again on October 15, 2004 (Serial No. 04-242B). Dominion also requested a schedule extension until January 28, 2005 for the implementation of the Physical Security Plan and Safeguards Contingency Plan in a September 20, 2004 letter (Serial No. 04-575).

By letters dated October 29, 2004, the NRC issued a Safety Evaluation Report documenting the NRC's review and acceptance of those plans as well as the NRC's assessment of Dominion's September 20, 2004 schedule extension request. Dominion provided comments on the SER in a December 9, 2004 letter (Serial No. 04-687).

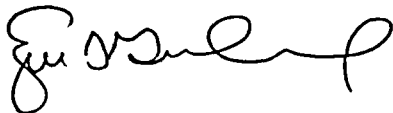

IE53

Section III.C. of Order EA-03-086 required Dominion to advise the NRC when implementation of the NRC approved Physical Security Plan, Safeguards Contingency Plan, and Training and Qualification Plan had been accomplished. Section III.C.2. of Order EA-03-039 required Dominion to advise the NRC when full compliance with the requirements in Attachment 2 to that Order had been achieved.

Dominion hereby certifies that the NRC approved Physical Security Plan, Safeguards Contingency Plan, and Training and Qualification Plan have been implemented by January 28, 2005 as allowed by the NRC's October 29, 2004 letter and the exercise of enforcement discretion pursuant to the Order during the transition period will no longer be necessary. The NRC was notified in a November 3, 2004 letter (Serial No. 04-657) that Surry had already implemented the requirements in Attachment 2 to Order EA-03-039.

If you have any questions, please contact Ms. Margaret Earle at 804-273-2768.

Very truly yours,

A handwritten signature in black ink, appearing to read "Eugene S. Grecheck".

Eugene S. Grecheck  
Vice President – Nuclear Support Services

Commitments made by this letter: None.
