DOCKET NUMBER

PETITION RULE FROM 73-12
(69FR 64690)

Dear Sir/Madame,

DOCKETED
USNRC

I am writing to urge your support and prompt acceptance of the Committee to Bridge the Gap's (CBG) Petition for Rulemaking (posted in the Federal Register on November 8, 2004, Volume 69, Number 215) for "Upgrading the Design Basis Threat Regulations for Protection Against Terrorist Attacks on Nuclear Reactors."

February 3, 2005 (11:53am)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

I am particularly concerned about the safety of building(s) housing spent fuel rods. I urge you to upgrade the Design Basis Threat (DBT) for U.S. nuclear power stations and revise DBT regulations and prepare for an attack of nuclear power stations by air by constructing steel I-Beams and cables as shields from air attack.

Thank you for seriously and proactively acting in your role of protecting the public.

Sincerely,
Carol A. Prost
