Dear US Nuclear Regulatory Com ATTN: Rulemakings and Adjudications Staf:

I am writing in support of the Petition for Rulemaking filed by the Committee to Bridge the Gap to the US Nuclear Regulatory Commission for "Upgrading the Design Basis Threat Regulations for Protection Against Terrorist Attacks on Nuclear Reactors" (posted in the Federal Register on November 8, 2004, Volume 69, Number 215). I'm experienced enough to know that only a major nuclear disaster producing many deaths will serve to sway the NRC from its determinaton to protect the nuclear industry at all costs. As an optimist, I send this message anyway.

Sincerely,

Ken Weiss
