PETITION FILE # 73-12
(69FR 64690)

Based on my research and reading, I am appalled at the lack of security upgrades at nuclear power plants since 9-11-01. You have a responsibility to protect the U.S. population. Plants are still frighteningly vulnerable to attack by airplane and by multiple ground intruders. I strongly support the security upgrades proposed by the Committee to Bridge the Gap, and urge you to adopt and implement them as soon as possible.
