DOCKET NUMBER
PETITION RULE PRM 73-12
(69FR 64690)

January 24, 2005

I write in support of Rulemaking proposed by the Committee to Bridge the Gap to upgrade protections against terrorist attacks on nuclear facilities which are woefully lacking.

Please upgrade the Design Basis Threat regulations mto require protections against more serious attacks by greater numbers of people, and please require protection against air attack by construction of Beamhenge shields.

Let us not be negligent. Thank you for doing all you can to protect our homeland and all of life from destruction in this area of great vulnerability.

Thank you.
