DOCKET NUMBER

PETITION RULE FPM

73-12
(69FR 64690)

I am writing because I am very concerned about the lack of security of America's nuclear plants. I understnad that an attack by an airplane could cause a disaster several times worse than the Chernoble disaster and that little or nothing is being done to provide inexpensive shields which might deter such an attack or to monitor defensive measures at plants around the country.

We need to get our heads out of the sand and do something to defend our nuclear plants against the terrorist threat.

Yours sincerely,

Pat Bray
