10.1 Radiation Detection Instruments:

We will use instruments that meet the Criteria in the section entitled “Radiation Safety Program – Instruments,” in NUREG – 1556, Vol. 4, dated August 1998, and each survey meter will be calibrated by the manufacturer or other person authorized by the NRC or an Agreement State to perform survey calibrations.

10.3.1.1      Personal Monitoring Equipment:

We will perform a prospective evaluation demonstrating that unmonitored individuals are not likely to receive, in one year, a radiation dose in excess of 10% of the allowable limits in 10 CFR Part 20 or we will provide dosimetry that meets the Criteria in the section entitled "Radiation Safety Program – Occupational Dosimetry," in NUREG – 1556, Vol. 4, dated August 1998.
