PETITION RULE PRM

73-12
(69 FR 64690)

(282)

We recently read an article in the LA Times about the lack of protections around nuclear facilities. Just the contemplation about the danger of the blast (should the facility be attacked) and the resulting fallout of Plutonium and other mutagenic isotopes fills us with dread. The delay in protecting such a vulnerability is cause for alarm. Could you facilitate this disturbing situation as quickly as possible? -Sincerely Leonardo and George DiCaprio
