Re: Request to Close License No. 21-32136-01 (Expiry November 30, 2008)

Dear Ms. Strasma:

Our Company has not done any business related to the use of a portable nuclear density gauge since 2003.

As a result we made a conscious decision to stop offering services related to the use of the portable gauges. The gauges for which we had access were rented on an as-needed basis from a sister company, therefore we do not have resale or disposal issues.

We searched the NRC web site and our existing documentation and we cannot locate a form or an endorsed procedure to formally implement our request. We look to you to either inform us of the correct procedure or pass this letter on to the appropriate person in-charge.

Attached, please find a copy of our letter to the "License Fee Branch" explaining our desire to stop paying the requisite annual fee.

Should you have any questions, do not hesitate to contact the undersigned.

Yours truly,

C.T. Soil & Materials Engineering Inc.

T. O'Dwyer, P.E.

Re: FY2005 Annual Materials Fee Invoice
Period 10/1/2004 – 9/30/2005
Invoice No. AM0509-05
License No. 21-32136-01

Dear Sir or Madam:

Enclosed, please find a copy of the subject invoice and our "Certification of Small Entity Status" which reduces the payment to \$500.

We have not enclosed payment since we have decided not to pursue the field of business that requires the use of a portable nuclear density gauge.

Simultaneously, we will be request the NRC, Materials Licensing Branch, Region III to cancel our license which was set to expire on 30 Nov 2008.

Should you have any questions, do not hesitate to contact the undersigned.

Yours truly,

C.T. Soil & Materials Engineering Inc.
