Subject: Report from State of CT re: alarming monitors at waste hauler site		
Summary: Regarding the above which indicated that a waste shipment from Charlotte Hungerford Hospital set off alarms at the waste haulers and was identified to be from the licensee, I asked Mr. Randall if the hospital had determined what this waste was found to contain. He stated that their analysis showed that it was patient excreta, i.e. a diaper contaminated with Tc-99m.		
Action Required/Taken: Place in ADAMS.
