Comment:

The environmental impact study needs to address

- The disposition of the waste produced by the enrichment process. Long term storage of material on site is not reasonable
- the health & safety of the workers
- the protection of water table and streams
- the release of radioactive materials into the air, soil and water

To submit your comment, please give this form to an NRC representative at tonight's meeting, or mail to: Chief, Rules and Directives Branch, Division of Administrative Services, Mailstop T-6D59, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001.

Your comments should be mailed to the NRC by February 1, 2005 to ensure full consideration.
