Comment:

- ① I have concerns about the impact of air and water releases on the members of the community living in the immediate and outlying areas and on the wildlife ~~living in the~~ there. There needs to be impact studies that demonstrate that the impact would be negligible.
- ② I am also concerned for the health of the workers. What do you plan to do differently to protect the workers that was not available previously. And do you plan to be up front and honest with the workers about what chemicals and substances they will work with.
- ③ Research should also be done to demonstrate that ~~there~~ there is a need for the plant.
- ④ Clean up costs should be covered by the company and paid for up front (over)

To submit your comment, please give this form to an NRC representative at tonight's meeting, or mail to: Chief, Rules and Directives Branch, Division of Administrative Services, Mailstop T-6D59, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001.

Your comments should be mailed to the NRC by February 1, 2005 to ensure full consideration.

⑤ concerns for waste being brought into this area  
& safety issues for the transportation of waste  
along roads & highways - impact studies  
need to be done

⑥ concerns for storage of this waste and time - line  
~~the~~ waste will still be around when those  
now responsible are long gone
