Synopsis	According to Mrs. Zinn the 3 rd camera room was added to cardiology about 12/03. The other camera rooms were moved at the same time as the hot lab. 35.300 materials were added to the license in anticipation of Dr. Watson's arrival, which still has not happened. 35.300 materials have never actually been done. She stated that she would have the consultant, Mark Perna call me.
Action Taken or Required	Spoke to Mark Perna. Diagrams of the new camera rooms will be faxed with an amendment request. Mr. Perna said that his understanding had been that they only had to send in hot lab changes.
