Cincinnati, OH 45209-1183

Dear Mr. Brown:

In accordance with Section .0345 of the North Carolina Regulations for Protection Against Radiation, you are hereby granted a general license for reciprocity to conduct the activities authorized under License No. 03212310036. You have been assigned General License No. 135-0172-R. This authorization does not relieve you of your obligation to notify this agency prior to each entry into North Carolina. Please use the enclosed notification report in doing so and read carefully the enclosed memo concerning three day prior notification for clarification of this requirement. The expiration date of your reciprocal recognition is **December 31, 2005**.

If at any time you perform the licensed activities in North Carolina in excess of 180 days during the term of your reciprocal license, you are required to apply for a Radioactive Materials License. This also applies if your company sets up a permanent office in this State to perform the licensed activities.

Enclosed you will find your reciprocal license, a list of emergency telephone numbers, a receipt (if applicable) for your paid fee, a blank notification report and memo clarifying the three day prior notification requirement. While engaging in authorized activities in North Carolina, you will be expected to comply with the North Carolina Regulations. You will be subject to inspection of your field activities by this agency.

If you have any questions regarding reciprocity or the North Carolina Regulations, please feel free to contact me.

Sincerely,

Original signed by:

J. Marion Eaddy III, Health Physicist
Radioactive Materials Branch
