To My ASPO States:

The deadline is fast approaching for submitting your staff training needs to us. Please see, posted on our website, All Agreement States letter STP-05-003. The response due to us by February 7, 2005.

Thank you,
Lloyd

MESSAGE: Cardelia, We have 3 new inspectors (vacancy to be filled soon) that our bureau chief, John Parker, has committed to supporting in obtaining "Core Course" training. It's just a matter of budgeting and timing. We will be sending 3 inspectors to the upcoming Licensing course in March and 2 to the Inspection Procedures course the week after. Hope this info helps in forecasting training needs.

TRAINING NEEDS SURVEY (STP-05-003)

The purpose of this letter is to request your input on forecasting training needs for Agreement States for the period of April 1, 2005 to September, 2006. We would appreciate your input* to the training survey no later than 30 days from the date of this letter. This information will be factored into our technical training program offered by the Technical Training Center. We would appreciate your indicating the number of applications that you intend to submit for each training class (i.e., those that you are prepared to financially support, through tuition and/or travel).

Thank you for your attention to this matter. If you have any questions regarding this correspondence, please contact me at (301) 415-2325 or the individual named below.

Enclosure:
As stated

*This information request has been approved by OMB 3150-0029, expiration 06/30/07. The estimated burden per response to comply with this voluntary collection is approximately 8 hours. Send comments regarding the burden estimate to the Records and FOIA/Privacy Services Branch (T-5F52), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet e-mail to infocollects@nrc.gov, and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202 (3150-0029), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.

 I believe we have the ^{financial} resources to support the training indicated. It's just a matter of budgeting and timing. Our bureau chief is committed to supporting the "core course" training.

Subject: Training Needs Survey

Brenda,

I know I'm late with this, but I did want to respond. (I've been out sick since last Thursday.) Although I'd like to send several staff to NRC courses, I can't say now which ones we will be able pay tuition and travel to attend. Because the courses involve out-of -state travel, there's a separate approval process we need to go through for each course, and the outcome is always uncertain.

Hi Brenda,
Sorry for the delay. I was unable to enter the information directly on the form, but here is the info.

H-111 Environmental Monitoring for Radioactivity 04/04-09/04 1 person
10/04-03/05 1 person
H-119 Air Sampling for Radioactive Materials 10/04-03/05 1 person
H-122 Basic Health Physics Technology Course 10/04-03/05 2 people
H-201 Health Physics Technology 04/06-09/06 2 people
H-121 MARSSIM 04/04-09/04 1 person

We will send the staff on a space available basis. We will cover the travel/lodging costs.
For H-122 we prefer space available, but will pay if necessary.

Let me know if you need anything else.
