

February 24, 2005

MEMORANDUM TO: Nader Mamish, Director
Emergency Preparedness Directorate
Division of Preparedness and Response
Office of Nuclear Security and Incident Response

FROM: Debra Schneck, Emergency Preparedness Specialist
Emergency Preparedness Directorate
Division of Preparedness and Response
Office of Nuclear Security and Incident Response

SUBJECT: SUMMARY OF JANUARY 26, 2005, MEETING WITH THE NUCLEAR
ENERGY INSTITUTE REGARDING EMERGENCY PREPAREDNESS
ISSUES

On January 26, 2005, the Nuclear Regulatory Commission (NRC) Office of Nuclear Security and Incident Response (NSIR) management and staff held a Category 2 public meeting with the Nuclear Energy Institute (NEI) and stakeholders to discuss nuclear plant Emergency Preparedness (EP) related issues at NRC Headquarters (HQ). This meeting was held as a portion of the regularly scheduled NRC EP counterpart meeting. An agenda is provided as Attachment 1.

Regional management and EP inspectors, as well as HQ management and staff, were in attendance. A list of meeting attendees is provided in Attachment 2.

NEI and licensee representatives made a series of presentations at this meeting. Attachment 3 contains the slides/handouts used to support these presentations.

The presentations led to discussion and interaction between stakeholders and NRC management and staff which resulted in a useful information exchange. NRC management decided during the presentation/discussion of "Emergency Action Level Revisions" that another meeting dedicated solely to this topic would be conducted at a future date.

During the "public questions and comments" period, a member of the public provided comments, including the suggestion to hold "public forums" on radiological emergency planning and preparedness to increase public confidence.
