SUBJECT: BELL LABORATORIES, ABANDONMENT OF APPLICATION FOR NEW
LICENSE, CONTROL NO. 135996

Dear Mr. Dambach:

This concerns the subject application for an NRC license and my telephone conversation of December 14, 2004, with Ms. Zella Sasnett of your staff, during which I had discussed with her the deficiencies in your application, including the use of the calibrator that is listed on your revoked NRC license No. 29-00170-06. Ms. Sasnett had promised to review the inventory of the material listed on the revoked license and provide me with the details.

As of February 15, 2005, this office did not receive the requested information. We are notifying you that we have voided your application because we consider you to have abandoned it. This action is taken without prejudice to the resubmission of your request.

Please be reminded that you must not use the material that is in your possession until you have received a new license that authorizes its use, and that Bell Laboratories is responsible for the security of the material which must remain in storage secured from unauthorized access. I have explained these requirements to Ms. Sasnett during my telephone conversation with her on February 15, 2005, and she assured me that the material is not in use and is in storage.

We appreciate your cooperation with us.

Sincerely,

Original signed by Sattar Lodhi, Ph.D.
