RE: License No. 37-00030-08, Renewal

Dear Ms. Ulrich:

We hereby request renewal of subject license, and enclose the covering fee in the amount of $340.00 (Category 3-B).

We are requesting an expiration date of December 31, 2004.

A new NRC Form 313 along with its attachments is accompanying this letter.

Condition 19. This should be modified to reflect that we are again requesting an exemption of the decommissioning funding plan. All the correspondence regarding this request, some of which is confidential, was supplied to James Kottan with the 37-00030-02 license renewal.

As we had discussed in the past, I am also enclosing a copy of a letter dated December 12,1968 by O. L. Olson that details the Quality Control tests that Safety Light Corporation uses on finished units. This letter is actually a letter that is included in Safety Light Corporation's 37-00030-09G license file.

The undersigned should be contacted with any questions concerning this renewal application.

Sincerely,

Larry Harmon
