SUBJECT: SAFETY LIGHT CORPORATION

Dear Mr. Lewis:

This responds to your letter dated January 19, 2005, regarding the NRC's decision to deny the renewal of the Safety Light Corporation license. We recognize that Safety Light Corporation has provided you with tritium foils necessary for products that your company supplies for its customers. While we regret any adverse impact that our decision regarding Safety Light Corporation may have on your company, our decision was based on the failure of Safety Light Corporation to demonstrate compliance with NRC requirements.

Because Safety Light Corporation's request for a hearing regarding that denial is currently pending before an Atomic Safety and Licensing Board, it would be inappropriate to comment further on this matter.

Sincerely,

*/RA/*
