Dear Sir:

During a January 15th telecon (Reference 2), the SFPO Staff requested that we provide computer data files for a sensitivity study we had performed and for which we had previously transmitted preliminary results (Reference 3). Specifically, the baseline case FLUENT files were requested. The requested files, which should also be treated as preliminary, are provided on the attached CD-ROM.

Please feel free to contact me if any questions arise or if you require any additional information.

Sincerely,

Evan Rosenbaum
Project Manager, LAR 1014-3
