Date: Tue, Oct 28, 2003
Time: 8:30 AM - 10:30 AM
Subject: Internal Meeting to Discuss 3- Hr Barriers and Manual Action Feasibility Criteria
Place: OWFN 4B8

This meeting is to solicit opinions concerning whether during the interim rulemaking period detection and suppression are needed for "feasible" manual actions. Additionally Ray would like some feedback on the regulatory/safety basis for the proposed "feasible" manual action.

If the Regions would like to participate via phone please contact me.

Thanks.

Eva A. Brown, Project Manager - Turkey Point
