**Subject:** Guidance information for exempt distribution licensing.

Mr. Naughton:

During our September 23, 2004 meeting with you, we agreed to provide you with details on information needed to complete a license application for the distribution of timepieces containing tritium, as well as the regulatory requirements and guidance material available. Please find this information in the attached Word document. This file specifically lists and explains the regulations and guidance material, specific information deficient in your original application dated May 28, 2004, and information needed for the distribution of new watch designs. You can obtain all regulations and guidance material through the Electronic Reading Room of NRC's main website: [www.nrc.gov](http://www.nrc.gov). Feel free to contact me if you have any questions. For questions related to licensing fees, please contact Brenda Brown of the License Fee and Accounts Receivable Branch at (301) 415-6055.

On a last note I would like to ask if you would respond to this email with a time frame of when you expect to be re-submitting the May 28, 2004 application for the mb-microtec watches.

Thank you very much.

Sincerely,

Jonathan Rivera  
Materials Safety & Inspection Branch
