RE: *Petition Under 10 C.F.R. 2.206 for the Florida Power & Light Company,
Turkey Point Units 3 & 4; Docket Nos.: 50-250 and 50-251*

Dear Mr. Reyes:

By Petition dated July 1st, 2004, the undersigned and the National Environmental Protection Center ("NEPC") requested that the U.S. Nuclear Regulatory Commission ("NRC") take certain and specific enforcement action against its licensee, the Florida Power & Light Company ("FPL") for willful and intentional discriminatory acts taken against the undersigned in violation of NRC regulations and requirements as set out under 10 C.F.R. 50.7.

To date, the undersigned has not received a timely response from the NRC with respect to his 2.206 Petition as required under the agency's regulations. Therefore, the undersigned explicitly requests that you initiate actions to cause a written response to the undersigned advising about the status of the aforementioned 2.206 Petition.

Any failure on the part of the NRC to timely provide the undersigned a written response to his inquiry as stated above, may result in redress of this matter in the courts. I look forward to receiving your timely written response accordingly.

Very truly yours,

Thomas Saporito
Executive Director
