Dear Sir:

I understand that Dominion Resources has asked for a site permit for a new nuclear plant to be erected in Mineral, Virginia on Lake Anna. I understand the growing need for more energy, but I am opposed to getting this energy from nuclear sources. Solar and wind provide clean and safe energy. I do not want to take the off chance that we could have another Three Mile Island or a Chernobyl with the killing of thousands of animals and people and contaminating the landscape for thousand of years to come. Would it not be a better solution to be more conservative and efficient in the use of the resources that we have and try safe wind and solar alternatives?

Please to not grant Dominion Resources the site permit.

Thank you.

Sincerely,

Nancy Campbell
