Subject: Docket No. 50-482: Correction to the First and Second Period Owner's Activity Reports for WCNOG's Second Inservice Inspection Interval

Gentlemen:

Reference 1 submitted the Owner's Activity Reports (OAR) for the First Period of the Second Inservice Inspection (ISI) Interval. Reference 2 submitted the Owner's Activity Reports for the Second Period of the Second ISI Interval. Wolf Creek Nuclear Operating Corporation (WCNOG) has discovered that the entry for the examination category of "Integral Attachments for Vessels" is incorrect. Since Refueling Outage (RF) 9, Table 1 of the OAR-1 Forms has indicated that 50% of the examinations for integral attachments for the pressurizer have been completed (1 of the 2 examinations completed). It has since been discovered that the examination of this component was only partially completed. ASME Section XI, 1989 Edition with no Addenda, Figure IWB-2500-13 shows the required examination area. The "A-B" area was examined, however; the "C-D" area was not. Per ASME Section XI, both areas "A-B" and "C-D" are required to be examined. Thus this examination was not complete for that component, and this category should not have been listed as 50% complete for the 2 examinations on the Form OAR-1. This issue is being addressed by the WCNOG corrective action program.

WCNOG will complete the required examinations for the Second ISI Interval, which ends September 2, 2005, during RF14. RF14 is scheduled for completion in May, 2005. This will complete the examination requirements of these components for WCNOG's Second ISI Interval. The correct status of the examinations will be reflected on the OAR-1 Forms for RF13 and RF14. The OAR-1 Forms will be submitted to the NRC within 90 days following the completion of ISI Period 3 and Interval 2.

LIST OF COMMITMENTS

The following table identifies those actions committed to by WCNOC in this document. Any other statements in this submittal are provided for information purposes and are not considered to be commitments. Please direct questions regarding these commitments to Mr. Kevin Moles at (620) 364-4126.

COMMITMENT	Due Date/Event
WCNOC will complete the required examinations for the Second ISI Interval during Refueling Outage 14. The correct status of the examinations will be reflected on the OAR-1 Forms for RF13 and RF14. The OAR-1 Forms will be submitted to the NRC.	Within 90 days following the completion of ISI Period 3 and Interval 2.
