**SUBJECT: PUBLIC MEETING SUMMARY (LICENSEE PERFORMANCE REVIEW)  
HONEYWELL SPECIALTY CHEMICALS - DOCKET NO. 40-3392**

Dear Mr. Edwards:

This letter refers to the public meeting conducted on February 7, 2005, to discuss our review of your performance in conducting NRC-licensed activities at Honeywell Specialty Chemicals. Your performance was evaluated in the areas of safety operations, radiological controls, facility support, and licensing activities covering the period from February 1, 2003 to November 20, 2004. The meeting also afforded you the opportunity to provide feedback to the NRC regarding your self assessment and perception of the NRC performance review. The meeting was beneficial and provided the NRC with an acceptable level of confidence regarding your plans to address those areas identified as needing improvement.

The names of participating attendees at the meeting and a copy of the presentations are enclosed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agency wide Document Access and Management System (ADAMS).
