Subject: My ACTIONS from today's Weekly Status Call

Jonathan,

Here are the new actions from today's phone call, and in complete, the actions taken.

1. Neil For Record #585, send Jonathan an e-mail regarding the LRA discussion of Boral Surveillance Program duration.

RESPONSE: The following statement from LRA Section B.1.3, Boral Surveillance, page B-25, under the heading, "Conclusion," states,

The Boral Surveillance Program effectively manages aging effects. Continued implementation of this program provides reasonable assurance that the effects of aging will be managed so that the components crediting this program will perform their intended functions consistent with the current licensing basis for the period of extended operation.

The last sentence conveys that the program will continue to be implemented throughout the period of extended operation.

2. Neil For the question on Groundwater Sampling, ER Appendix B, page B-13, provides page 5 of 22 of MDEQ Discharge Permit #00988.

Paragraph B addresses the requirements to sample groundwater and submit results to MDEQ on a quarterly basis.

3. Neil Update List of NRC Follow-Up Actions.

RESPONSE: See attached. (See attached file: NRC Follow-up Actions (2004-09-27A1).doc)

4. Neil Review Om Chopra's comments on RAI 3.6-2 (Q2), and revise accordingly, or provide comments or questions.

RESPONSE: Review in progress. Will either provide questions/comments, send revised draft, or concur (no response).

Please let me know if you have any additional comments or questions.
Neil
