

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION I
475 ALLENDALE ROAD
KING OF PRUSSIA, PENNSYLVANIA 19406-1415

February 10, 2005

Docket No. 03033496
Control No. 136008

License No. 06-30139-01

Peter Frick
Laboratory Director
Severn Trent Laboratories
128 Long Hill Cross Road
Shelton, CT 06468

SUBJECT: SEVERN TRENT LABORATORIES, ISSUANCE OF LICENSE RENEWAL,
CONTROL NO. 136008

Dear Mr. Frick:

This refers to your request for renewal of your NRC license. Enclosed with this letter is the renewed license. Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

The NRC is required to have your Taxpayer Identification Number in order to make payments (refunds). The self-addressed, stamped NRC Form 531, "Request for Taxpayer Identification Number," is enclosed.

The NRC expects licensees to conduct their programs with meticulous attention to detail and high standards of compliance. Because of the serious consequences to employees and the public that can result from failure to comply with NRC requirements, you must conduct your program according to NRC regulations, the conditions of your NRC license, and the representations made in your application. In particular, note that you must:

1. Operate in accordance with NRC regulations 10 CFR Part 19, "Notices, Instructions and Reports to Workers; Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.
2. Notify the NRC in writing of any change in mailing address.
3. In accordance with 10 CFR 30.36(d), notify the NRC, promptly, in writing, and request termination of the license
 - a) when you decide to terminate all activities involving materials authorized under the license; or
 - b) if you decide not to acquire or possess and use authorized material.

4. Request and obtain a license Amendment before you:
 - a) change Radiation Safety Officers;
 - b) order byproduct material in excess of the amount, or radionuclide, or form different than authorized on the license; or
 - c) add or change the areas of use, or addresses of use identified in the license application or on the license; or
 - d) change the name or ownership of your organization.
5. Submit a complete renewal application or termination request at least 30 days before the expiration date of your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of byproduct material after your license expires is a violation of NRC regulations.

In addition, please note that NRC Form 313 requires the applicant, by signature, to verify that the applicant understands that all statements contained in the application are true and correct to the best of the applicant's knowledge. The signatory for the application should be the licensee or a certifying official of the licensee rather than a consultant.

You will be periodically inspected by the NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in NUREG 1600, "General Policy and Procedure for NRC Enforcement Actions" (Enforcement Policy).

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Please note that on October 25, 2004, the NRC suspended public access to ADAMS, and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the NRC Public Document Room pending resumption of public access to ADAMS. The NRC Public Document Room is located at NRC Headquarters in Rockville, MD, and can be contacted at 800-397-4209 or 301-415-4737 or orpdr@nrc.gov.

P. Frick
Severn Trent Laboratories

3

Thank you for your cooperation.

Sincerely,

Jenny Johansen
Health Physicist
Security and Industrial Branch
Division of Nuclear Materials Safety

MATERIALS LICENSE

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 39, 40, and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

<p>Licensee</p> <p>1. Severn Trent Laboratories</p> <p>2. 128 Long Hill Cross Road Shelton, Connecticut 06484</p>	<p>In accordance with the application dated November 17, 2004,</p> <p>3. License number 06-30139-01 is amended in its entirety to read as follows:</p> <p>4. Expiration date February 28, 2015</p> <p>5. Docket No. 0303496 Reference No.</p>	
<p>6. Byproduct, source, and/or special nuclear material</p> <p>A. Hydrogen 3</p> <p>B. Any byproduct material with Atomic Numbers 3 through 83</p> <p>C. Any byproduct material with Atomic Numbers 84 through 103</p> <p>D. Any source material</p> <p>E. Any Special Nuclear Material</p>	<p>7. Chemical and/or physical form</p> <p>A. Analytical Samples</p> <p>B. Analytical Samples</p> <p>C. Analytical Samples</p> <p>D. Analytical Samples</p> <p>E. Analytical Samples</p>	<p>8. Maximum amount that licensee may possess at any one time under this license</p> <p>A. 10 millicuries</p> <p>B. 100 microcuries per radionuclide and 10 millicuries total</p> <p>C. 10 microcuries per radionuclide and 100 microcuries total</p> <p>D. 1 millicurie</p> <p>E. 1 millicurie</p>

9. Authorized use:

A. through E. Laboratory analysis of environmental samples as a service for others.

CONDITIONS

- 10. Licensed material may be used only at the licensee's facilities located at 128 Long Hill Cross Road, Shelton, Connecticut.
- 11. A. Licensed material shall be used by, or under the supervision of David Madumadu or Peter Frick.
- B. The Radiation Safety Officer for this license is David Madumadu.

Amendment No. 09

12. The licensee may transport licensed material in accordance with the provisions of 10 CFR 71, "Packaging and Transportation of Radioactive Material."
13. The licensee shall not use licensed material in or on human beings.
14. The licensee shall not use licensed material in field applications where it is released except as provided otherwise by specific condition of this license.
15. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.
- A. Application dated November 17, 2004 (ML043420392)
- B. e-mail received February 4, 2005 (ML050339568)
- C. Letter dated February 4, 2005 (ML050380000)
