Dear Mr. Walker :

In order to help both Agreement States and the U.S. Nuclear Regulatory Commission (NRC) remain knowledgeable of each others' programs and to conduct planning for the next Integrated Materials Performance Evaluation Program (IMPEP) review, the IMPEP process includes holding one-day periodic meetings with Agreement States between IMPEP reviews.

In accordance with the Office of State and Tribal Programs (OSTP) Procedure SA-116, we request a meeting, no longer than one day, to discuss your Agreement State Program and share programmatic information. This letter confirms that, after previous coordination, the meeting is scheduled for April 20, 2005, and will be held in your offices.

2. Strengths and/or weaknesses of the State program as identified by the State or NRC including identification of actions that could diminish weaknesses.
3. Feedback on NRC's program as identified by the State and including identification of any action that should be considered by NRC.
