Behh of Microsaint will be here tomorrow interviewing Mike to build a model; addressing fire manual actions time estimations. the attached shows scenarios that were developed by Microsaint as part of J. Persensky work on staffing.

**Can we talk about it at about 2:00 pm ET today (if not what time would it be could for you?)**

**The purpose of the call is for Jay to explain a some detyail about how Beth would build the model (I hope Jay you will be able to do that!)**

**Also, tomorrow at the end of the day, Beth could do a presentation/discussion of what she did. I believe that she will be through at about 4:00 pm. Can we meet/talk at about that time?**

thanks

Erasmia
