I've added my comments to the new section only (i.e., skipping the original and the appendices). Open in WordPerfect and use file/document/reviewer.

Hi Everyone,

Attached is a draft of the summary report. I simply included another section in the summary of the first meeting to cover the second meeting. The new stuff runs roughly from page 21 to 33 (sections 3 and 4 are new), but I also made some modifications in the earlier sections. You can see what changes were made in the early sections by going into document review mode.

Please review and let me know what changes are needed. I will then send out to the expert panel for review.

I am also sending it to Mike for possible use in developing scenarios. Mike, you are also welcome to review if you want, or you can wait for the next version.

Thanks,
John
