Mr. Vanterpool:

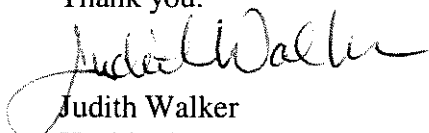

Concerning the license renewal for Kalispell Regional Medical Center, please provide:

- (1) The purpose for which depleted uranium will be used.
- (2) The manufacturer name and model number for 35.500 material requested (e.g. Iodine-125, or gadolinium-153 as a sealed source in a device for bone mineral analysis; and Iodine-125 as a sealed source in a portable imaging device).

If the manufacturer name/model number for the Sr-90 sealed source cannot be provided, then it will be added to your license as "storage only."

If you have any questions concerning this fax, please contact me at 817-860-8299.

Thank you.
