Subject: Comments on Draft NUREG-1811

Dear Ms. Williamson,

Please add the attached 33 signatures to the 540 signatures supporting the NA-YGN petition that were already provided to NRC staff at the NRC public hearing held last February 17, 2005 in Louisa Co. As stated at the hearing, all these signatures supporting Dominion's proposed new nuclear reactors at North Anna, were obtained in only one day.

Thank you!

Sincerely,

Dr. Sama Bilbao y León  
Virginia Section of the North American Young Generation in Nuclear (NA-YGN)

# PETITION SUPPORTING DOMINION'S PROPOSED NEW NUCLEAR REACTORS AT NORTH ANNA

We, the undersigned individuals, many of us being customers and shareholders of Dominion Resources, as well as residents of Louisa County or other areas neighboring the North Anna site, SUPPORT plans by Dominion to secure an Early Site Permit (ESP) to construct new nuclear reactors at its North Anna facility, on the following grounds:

- We concur with the NRC's conclusion that environmental impacts would not prevent issuing an ESP for the North Anna site.
- We believe that nuclear energy is safe, clean, reliable and cost effective, and as such, it should continue to be an important part of a balanced energy mix.
- We support the ESP process as the means to guarantee an open and thorough evaluation of future nuclear projects, while ensuring the timeliness and predictability of the process.
- We commend Dominion for being proactive and farsighted when looking for reliable methods of addressing expected increases in energy demand over the coming years, while minimizing the environmental footprint of the selected energy sources, as well as the economic burden to Dominion customers.

Therefore, we urge the U.S. Nuclear Regulatory Commission to GRANT Dominion's application for an Early Site Permit.
