Subject: renewing of Millstone lic.

We want to voice our concern about the renewal of the Millstone Power Plant license. We are strongly opposed to this, and hope that you will consider closing the plant. We are very concerned that there is no apparant notification system in place - we site the recent fire, and site evacuation in Jan. 2005. There are no policies in places to notify neighboring states, this is a huge concern of ours. As residents of New Jersey, we would want to be fully advised, and alerted to when public meetings are being held to discuss/debate the renewal of the license. Again, I urge you to refuse the renewal of the Millstone opereating Units 2&3

Sincerely,
Valerie Briody
