Subject: Millstone Nuclear Power Plant

I am a former Long Island resident and I strongly oppose the relicensing of the Millstone Nuclear Power Plant, Units 2 and 3 to the year 2045. However, should the license be renewed, I believe it is imperative that the NCR expand the scope of its evacuation plant to a 50-mile radius to include all of Long Island. I implore you to consider this for the benefit and safety of the Long Island residents.
