Place: LAT@nrc.gov

I have completed a preliminary review of your application and have a few additional questions as follows:

- 1. You have provided a diagram of one of your laboratories but you should provide a diagram for each laboratory that will use byproduct material as indicated in NUREG 1556, Volume 7, page 8-20.**
- 2. Please provide additional information on your method for balancing inventory.**
- 3. Please confirm that you intended to remove Cs-137 authorization for Dr. Pizzorno.**

You may reply by facsimile to 610 337-5269 and refer to Mail Control No. 136371.

Thank you in advance.
