OE

Patty,

This just confirms the approach we discussed with regard to the subject SRM and the current WITS item associated with it.

SRM-03-100:

CURRENT STATUS:

1 WITS item assigned to NRR for rulemaking and enforcement policy

RECOMMENDED APPROACH:

Enforcement Policy aspect should be broken into 2 pieces:

1 WITS item assigned to NRR to develop interim feasibility criteria (IFC), including technical basis and disposition of public comments. (Currently due 12/5/03)

1 WITS item assigned to OE to develop (2 months after receipt of IFC from NRR) SECY with Interim Enforcement Discretion Policy, Federal Register notice, and Congressional letters) (due 2 months after NRR due date or currently 2/5/04)

Please let me know if you have any further questions and send the new WITS item to OE when you get it.

Thanks!!

Renee
