 Subject: upgrade the design basis threat

Dear commission members,

I strongly uphold the petition to upgrade the Design Basis Threat for nuclear power stations (PRM-73-12). I feel it is imperative for the nuclear power industry to prepare for an air attack by constructing shields of steel I beams and cabling to obstruct any aircraft attempting to crash into a nuclear site. Sincerely, Susan F. Becker, 1842 47th Ave., Capitola, Ca. 95010
