Subject: License amendment			
<p>Summary:</p> <p>The information received from Mr. Eberle stated that they wished to delete 35.500 from their license because they no longer have an authorized user for that material. However, they did not ever have 35.500 materials. What they meant to say was delete 35.300 materials. Mr. Eberle will fax a statement that they wish to delete 35.300 materials and state that they no longer possess any 35.300 materials.</p> <p>In addition, Mr. Eberle stated that they wanted to add PET/CT to their license with a Ge-68 sealed source. I informed Mr. Eberle that Ge-68 is a state regulated material not the NRCs. He will send the information to the State of Pennsylvania for inclusion on their state license.</p>
