Subject: Your application for a new NRC license.

I have completed a preliminary review of your application and have some questions as follows:

Please complete a NRC Form 313A as included in NUREG-1556, Vol. 9 to describe in detail the training received by Dr. Saini and Dr. Sangrigoli. You should note that 10 CFR 35.920 (in Subpart J requires 500 hours of clinical and an additional 500 hours work experience. Also because the preceptors provided for these physicians are at an Agreement State or from a Broadscope license it is not apparent that they are authorized users for the area of diagnostic use for which they are providing preceptors. Please provide sufficient documentation which could be a copy of the Agreement State license showing the physicians authorizations or a letter of approval from the facilities Radiation Safety Committee.

You may reply by facsimile to 610 337 5269 and refer to Mail Control 136412.

Thank you in advance.
