Senior Health Physicist

1. Please submit a "signed" copy of your amendment request dated February 11, 2005.
2. Please note that a field station is a location where licensed material may be stored or used **and** from which the licensee will dispatch equipment to job sites.

Please clarify if the 2 new locations to be added to the license are storage locations only or field stations. If devices will **NOT** be stored at a dispatch site or field station, please indicate this. In addition, please indicate whether radiographic operations will be performed at the field station. If so, provide a diagram of the location where radiography may be performed and its surroundings, including a description of adjacent property.
