SUBJECT: REVISION OF SCHEDULE FOR THE CONDUCT OF REVIEW OF NINE MILE
POINT NUCLEAR STATION, UNITS 1 AND 2, LICENSE RENEWAL
APPLICATION (TAC NOS. MC3272, MC3273, MC3274 AND MC3275)

Dear Mr. Spina:

Enclosed is a revised schedule for review of the Nine Mile Point Nuclear Station, Units 1 and 2, license renewal application. This schedule has been revised to reflect the request in your letter dated March 3, 2005 (Adams Accession No. ML050680270). By your letter dated March 3, 2005 you requested a grace period not to exceed 90 days to recover the quality of the License Renewal Application (LRA) for Nine Mile Point Units 1 and 2. As stated in our letter to you dated March 7, 2005 (Adams Accession No. ML050660147), the staff will resume the review and audits upon receipt of your letter confirming the completion of your recovery efforts. Assuming a satisfactory submittal and adequate support from your staff for this review and audit activities, we will extend the review schedule, as appropriate, to accommodate the additional time needed to complete the NMP review and in consideration of competing priorities posed by other concurrent license renewal reviews.

J. Spina
