Document\_Title: Draft Environmental Impact Statement for an Early Site Permit (ESP) at the North Anna ESP Site (NUREG-1811) Draft Report for Comment.

Comments: I see no problem with an early site permit for North Anna Site. I have always belived in using Nuclear Fuel for supporting the electrical needs of the United States. It's safe, environmentally clean, efficient and low maintance. I would like to see more Nuclear Fuel Plants so that coal, natural gas and etc. could be used in other areas.
