Dear Mr. Troxler:

This is to express my gratitude on behalf of the United States Nuclear Regulatory Commission (NRC) for the assistance that Mr. Richard Reaves and Ms. Chrissy Willis of your staff provided to Imaging Subsurface, Inc., a former NRC licensee, in disposing of four nuclear moisture-density gauges. Their cooperation in ensuring that the gauges were safely transferred to your facility assisted us in protecting public health and safety.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

/RA/

Marc L. Dapas, Director
Division of Nuclear Materials Safety
